Affiliated to the University of Calcutta, NAAC accredited

Course Outcome Attainment Evaluation

RANI BIRLA GIRLS' COLLEGE

Method for Evaluating Course Outcome Attainment

The Course Outcome attainment of Semester-IV has been evaluated using direct and indirect methods of assessment. The direct assessment is based on the total scores (FM 100) of Semester-IV marksheets of the students with the weightage of 60% and Internal Assessments (FM) in CC8, CC9, CC10 and SEC courses with the weightage of 20% whereas, the indirect assessment is based on the feedback for Course Outcome attainment collected from the students with the weightage of 20%.

The averages have been calculated for both student-wise combined Course Outcome attainment to substantiate the learning levels of the students – Advanced, Average and Slow and actual Course Outcome attainment to evaluate the departmental attainment. For assessing the learning levels of the students, we have taken into account the following criteria:

Average Attainment of a Student	Learning Level
70% and above	Advanced learner
60% - below 70%	Average learner
Below 60%	Slow learner
