REPORT ON EXCURSION TO SHANTINIKETAN

BY DEPARTMENT OF GEOGRAPHY

FOR ACADEMIC SESSION 2018-2019

The 3rd Year Geography Honours students of Rani Birla Girls' College were taken on a compulsory excursion as part of completion of their B. Sc Part III syllabus, Calcutta University at Shantiniketan, from 28/09/2018 to 01/10/2018. The Department of Geography of Rani Birla Girls' College conducted this excursion with fifteen students who got approval from their guardians to go for the excursion along with 3 department teachers- Dr Srabanti Bhattacharya, Mrs Kalpana Biswas and Ms Kamalika Paul and one laboratory assistant- Mr Sanjeeb Dey.

The girls had a very enriching experience in the excursion and felt very motivated throughout the visit. As it was a part of their syllabus they too got to practically learn from the visit. The excursion was a very successful and insightful for the department and the students submitted their projects after the field visit.

The students who went for the excursion are:-

1) Nazneen Begum 2) Saba Parveen 3) Puja Dolui 4) Ayantika Chaudhury 5) Rena Chatterjee 6) Asfia Azad 7) Ilma Afzal 8) Mousumi Mondal 9) Mahavish Maqsood 10) Debrupa Mitra 11) Puspita Pal 12) Pallabi Nandy 13) Taniya Paul 14) Putul Kumari 15) Trisha Bharati

REPORT ON VISIT TO RDB KNIT FAB
BY DEPARTMENT OF FASHION & APPAREL DESIGN
FOR ACADEMIC SESSION 2018-2019

A visit to RDB Knit Fab, a factory for knitted garments at Barasat Garment Park was conducted by the Department of Fashion and Apparel Design of Rani Birla Girls' College on 5th October 2018. The students of the Department along with the Department teachers – Dr. Sunanda Mitra Roy, Dr. Sarmistha Mukherjee and one Technical Assistant – Mr. Subrata Chakraborty visited the RDB Knit Fab. The students had seen the construction of different types of knitted garments, computer aided embroidery work and printing of knitted fabrics. It was a very enriching experience for the students and the visit was very insightful.

REPORT ON WALL MAGAZINE - *WOMEN IN POLITICS*

BY DEPARTMENT OF POLITICAL SCIENCE

FOR ACADEMIC SESSION 2018-2019

The Department of Political Science organised a departmental activity in the form of publication of a WALL MAGAZINE on the theme – *Women in Politics* to be displayed in the departmental wall in Room No.308 on 11.11.2018 from 11am onwards. The teachers of the Department, Ms Swati Bhattacharya, Ms Fauzia Javed and Dr Priti Ghatani encouraged the students to prepare and present on the above-mentioned theme out of their own creative ideas and insights. Twelve students beautifully prepared the Wall Magazine on the theme and displayed their creative ideas through this magazine. They depicted the works of women from pre-colonial to post-colonial era. The wall magazine was successfully inaugurated in the department and the students were delighted to participate in the event.

REPORT ON THE DEPARTMENTAL FASHION SHOW

The Department of Fashion and Apparel Design of RBGC organized an 'Exhibition cum Fashion Show - Colours of The Runway' held at Kalakunj on 19th March 2019. Dr. Sampa Dutta Gupta, Adiministrator of RBGC inaugurated the exhibition and Dr. Sunetra Sinha, Principal of RBGC delivered the welcome address. The keynote address was delivered by Mrs. Pampa Chatterjee, Principal Co-ordinator, Self -financed Courses of RBGC. The students of the Department took part in the fashion show and showcased the garments and the jewelleries designed and prepared by them. The members from other organizations like NIFT, ATDC, Visva-Bharati University were present as the audience. The eminent persons from the fashion and garment industry were also present. The Director of NIFT, Rukma Roy, the actress, the Editor of Sananda Magazine, the anchor of Zee Bangla were present as the member of the jury in the fashion show. At the end of the show the prize distribution was done among the students on the basis of the best design, best stylization, best theme etc.

REPORT ON SEMINAR- STUDENTS' PRESENTATION
BY DEPARTMENT OF GEOGRAPHY
FOR ACADEMIC SESSION 2018-2019

The Department of Geography conducted a Students' Seminar for the students of Semester II Geography Honours in which they presented their papers on the theme – **Comparative Analysis of Different Tribes of the World** on 28th March 2019 in Room no 104. Twenty students of the department and faculty members, Dr.Srabanti Bhattacharya, Mrs Kalpana Biswas, Ms Kamalika Paul were present for the above-mentioned programme. The students who presented their papers on the given theme gave a very comprehensive and detailed analysis of the different tribes of the world and also compared their lifestyles pertaining to food habits and cultures. The presentation was very well managed and the students participated with great enthusiasm. The programme was successful and informative .

REPORT ON VISIT TO BEGUMPUR CLUSTER
BY DEPARTMENT OF FASHION & APPAREL DESIGN
FOR ACADEMIC SESSION 2018-2019

A visit to Begumpur Cluster was organised by the Department of Fashion and Apparel Design of Rani Birla Girls' College on 30th April 2019. The students of the Department along with the Department teachers – Dr. Sunanda Mitra Roy, Dr. Sarmistha Mukherjee and one Technical Assistant – Mr. Subrata Chakraborty visited the industry at Begumpur. The students had seen the weaving process of various types of sarees woven in handloom and semi-automatic loom. They had also seen the working process of dobby loom and jacquard loom. The students learnt the dyeing of yarn and fabric with vat and reactive dye. The students had also seen the knitting of fabrics and the rib knitting machine. It was a very enriching experience for the students and the visit was very insightful.

INTRODUCTION

An 'Ecosystem' is a region with a specific and recognizable landscape form, such as a forest, grassland, desert, wetland or coastal area. The nature of the ecosystem depends on its geographical features such as hills, mountains, plains, rivers, lakes, coastal areas or islands and is also controlled by climatic condition - the amount of sunlight, temperature and rainfall in the region.

Basically an 'Ecosystem' is a community of living organisms in conjunction with the non-living components of their environment, interacting as a system. These biotic and abiotic components are linked together through nutrients cycles and energy flow. Ecosystems are dynamic entities - they are subject to periodic disturbances and are in the process of recovering from some past disturbance. Ecosystems in similar environments that are located in different parts of the world can end up doing things very differently simply because they have different pools of species present.

INTRODUCTION

The term Environment has been derived from a French word Environer which means to surround. It refers to both abiotic (physical or non-living) and biotic (living) environment. The word environment means surroundings in which organisms live. Environment and the organisms are then dynamic and complex component of nature. Environment regulates the life of the organisms including human beings. Human beings interact with the environment more vigorously than other living beings.

It is therefore the sum total of conditions that surround us at a given point of time and space. It is composed of the interacting aspects of physical, biological and cultural elements which are inter-linked both individually and collectively.

Thus, Environment refers to anything that is immediately surrounding an object and exerting a direct influence on it.

With reference to the case study of different plants, birds and insects, it can be stated that birds are associated with plants and feed on insects. Insects feed on plants and are preyed upon by birds.

The parts of plants eaten by the birds.

STUDY OF COMMON PLANTS, INSECTS AND BIRDS.

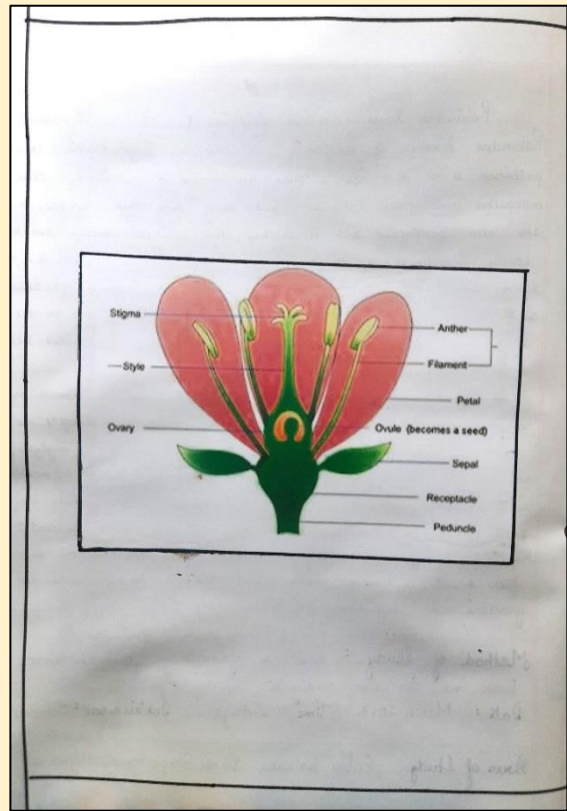

Introduction :

PLANTS

Plants are mainly multicellular, predominantly photosynthetic eukaryotes of the kingdom "PLANTAE". Green plants obtain most of their energy from sunlight via photosynthesis by primary chloroplasts that are derived from endosymbiosis with cyanobacteria. Their chloroplasts contain chlorophylls a and b, which gives them their green color. Some plants are parasitic or mycotrophic and may lose the ability to produce normal amounts of chlorophyll or to photosynthesize. Plants are characterized by sexual reproduction and alternation of generations, although asexual reproduction is also common.

There are about 320 thousand species of plants, of which the great majority, some 260-290 thousand, are seed plants. Green plants provide a substantial proportion of the world's molecular oxygen and are the basis of most of Earth's eco-systems, especially on land. Plants that produce grain, fruit and vegetables, form

INTRODUCTION

The Geography department of Ram Biria Birla College had arranged for a field trip to Adityapur of Bolpur Sriniketan block of Bolpur district in West Bengal from 28.1.18 to 1.10.18 as a part fulfillment of Calcutta University Geography Honours part III syllabus.

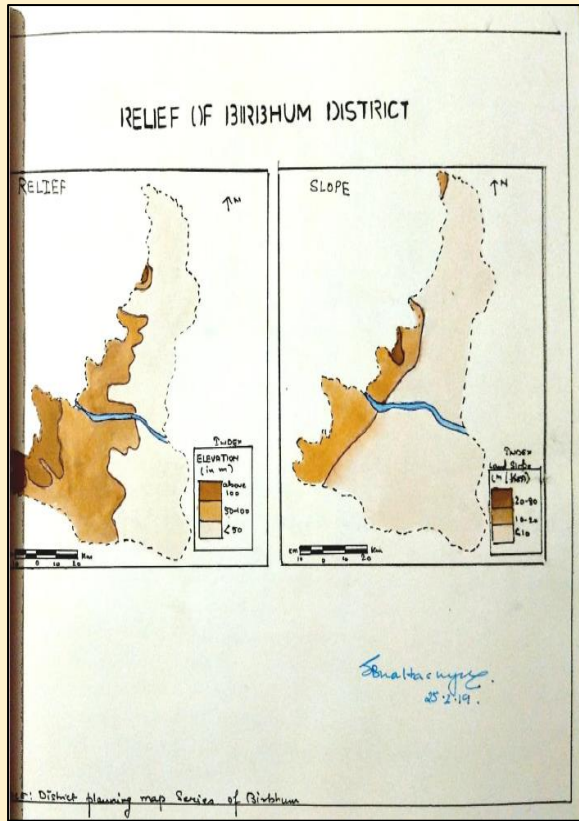

1.1 OBJECTIVE OF THE STUDY

The major objective of preparing the report is to present a geographical account of Adityapur village of Bolpur Sriniketan block in Bolpur district of West Bengal. The report thus includes an analysis of the broad physical environment of the study area and its surroundings along with a detailed study of the socio-economic set up. An attempt has been made to establish a relationship between physical and cultural environment of the study area.

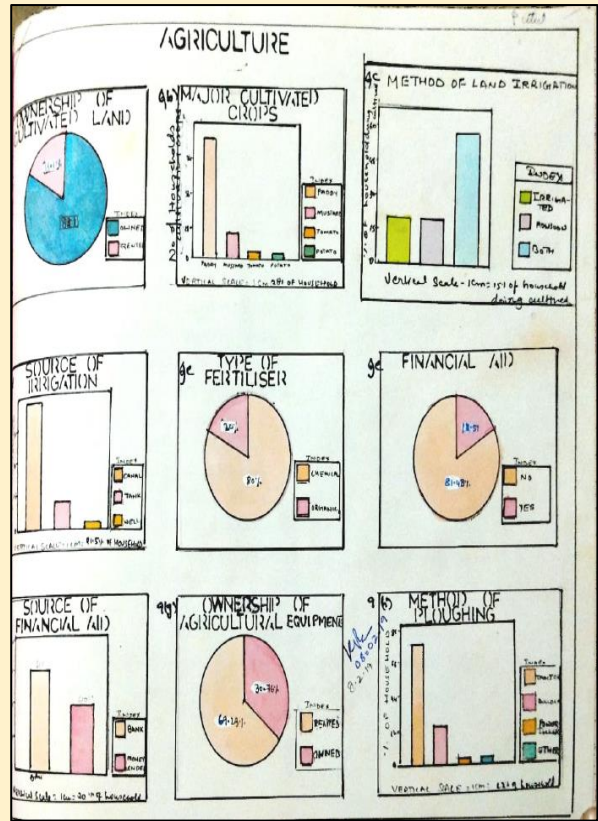

1.2 STUDY AREA

The study area selected for the field trip of Adityapur village of Bolpur block of Bolpur district in West Bengal. Bolpur is a district in West Bengal located 10 km away from Bolpur district.
