Audited by:

Dr. Pranabes Sanyal (IFS Rtd.)

Ex Chief Environment Officer,
Govt. of West Bengal

Jadavpur University, Kolkata 32

The College initiated and completed the Green Audit for the college campus for the session 2022-23 and also for the session 2023-24.

Link given in the college website for detailed report: https://www.rbgc.ac.in/Audit-Reports/Green_Audit_Report_2022-23.pdf

RECOMMENDATIONS

SUGGESTIONS AND RECOMMENDATIONS

Based on observations and resource availability, the auditor makes the following recommendations during a green audit to the college authority, asking for their thoughtful consideration.

1. To raise awareness among students and teachers, all plants on campus must be properly identified with name plates that provide the plant's botanical name, family, local name, and any economic or medical significance.
2. By adding native medicinal (herbal) and commercially significant species, a tiny medicinal plant garden may be established on campus. (A proposed list is provided in table 2).
3. To raise general awareness among students about biodiversity conservation, campus events such as debates on environmental awareness, and green skill development may be arranged on a regular basis.
4. Increasing the variety of containers available can help the college's waste management efforts. Laboratory and non-biodegradable trash can be disposed of by working with a licensed, experienced company.
5. The biodegradable wastes can be turned into vermicompost or bio-compost, which can be utilised again for gardening to promote self-sustainability.
6. If available, energy-saving lightbulbs and electric appliances should be used to lower energy usage.
7. To preserve and enhance the campus's environmental health as well as that of its students and professors, the campus should undergo periodic assessment and green auditing.
8. Education-related graffiti featuring phrases and slogans from notable individuals, especially female scientists, might be strategically positioned to motivate students.
9. College campuses can install rainwater collection systems.
